

# **Index to the NLGI Spokesman**

## **Volume III, April 1988 - March 1989**

### **Index by Authors**

- Bajaj, Kris K., *Mist Application of Lubricants*, April 1988 (1)
- Fahey, John E., *President's Address*, December 1988 (9)
- Feher, J.J. and Malone, B.W., *Evolution of EP Additives for Greases and Industrial Gear Lubricants*, March 1989 (12)
- Fennema, Roger L. and Doornbos, Daniel, *Technology and Lubricants - The 1989 Domestic Automobiles*, January 1989 (10)
- Fuchs, Dr. Manfred, *World Lubricants Market, The*, January 1989 (10)
- Gesdorf, Edward J., *Open Gear Spray Systems - Recent Developments*, April 1988 (1)
- Gordon, Joseph R., *Flammability of Grease, The*, November 1988 (8)
- Gow, Graham, *Judges 5:5 - The Time Factor in Grease Rheology*, December 1988 (9)
- Haas, J.M., Dimeler, G.R., Basil, E.W., Wilkins, G.W. and Nutter, J.S., *Simple Analytical Test and a Formula To Predict the Potential for Dermal Carcinogenicity from Petroleum Oils, A*, February 1989 (11)
- Izcue G., Antonio, *Infrared Spectroscopy in the Development and Manufacture of Lubricating Greases*, August 1988 (5)
- Jenks, G. Ralph, *Innovative Packaging: The New Cap-Lock System*, May 1988 (2)
- Kieke, M., Kyriakopoulos, C., Maas, J., *Application Studies of Self Activating Organoclay Grease Gellants*, June 1988 (3)
- Kieke, M., Kyriakopoulos, C., Maas, J., *Application Studies of Self Activating Organoclay Grease Gellants (Revised)*, September 1988 (6)
- Lauret, Joep H.M., *Dynamic Grease Testing Methods*, September 1988 (6)
- Massey, J.M., Turner, D.A., Witte, A.C., *Computer Control: Applications to Grease Manufacture*, June 1988 (3)
- McAfee, Lowell, *Value Engineering, the Automated Batch Process*, July 1988 (4)
- McLemore, Michael S. and LeSaicherre, James R., *Design and Operation of a High-Volume, High-Efficiency Grease Plant*, February 1989 (11)
- Muir, Ronald J., *High Performance Calcium Sulfonate Complex Lubricating Grease*, July 1988 (4)
- Portwood, Robert B., *1987 National Lubricating Grease Institute Grease Production, Marketing and Shipment Survey - A Challenge for the 90's*, March 1989 (12)
- Pruitt, Phillip R., *NLGI 1988-89 President*, December 1988 (9)
- Root, Jon C., *NLGI Technical Committee, The*, February 1989 (11)
- Staäler, J.F., *ASTM D 4693 Low Temperature Torque Test for Grease Lubricated Wheel Bearings*, September 1988 (6)
- Vartanian, Paul F., *The Revised ASTM D-1743 Standard Test Method for Corrosion Preventive Properties of Lubricating Greases*, May 1988 (2)

- Vartanian, Paul F., *The Revised ASTM D-1743 Standard Test Method for Corrosion Preventive Properties of Lubricating Greases*, May 1988 (2)

Winterburn, Georgina A., *Cooperative Test Results of Apparent Viscosity Determinations at Low Shear Rates Using the Constant Pressure Viscometer*, November 1988 (8)

Wunsch, Fritz, *Relationship Between the Chemical Structure of a Lubricant and Fretting Corrosion*, December 1988 (9)

## Index by Title

1987 National Lubricating Grease Institute Grease Production, Marketing and Shipment Survey - A Challenge for the 90's, Portwood, Robert B., March 1989 (12)

1988 NLGI Awards, November 1988 (8)

*Application Studies of Self Activating Organoclay Grease Gellants*, Kieke, M., Kyriakopoulos, C., Maas, J., June 1988 (3)

*Application Studies of Self Activating Organoclay Grease Gellants*, (Revised), Kieke, M., Kyriakopoulos, C., Maas, J., September 1988 (6)

*ASTM D 4693 Low Temperature Torque Test for Grease Lubricated Wheel Bearings*, Stadler, J.F., September 1988 (6)

*Computer Control: Applications to Grease Manufacture*, Massey, J.M., Turner, D.A., Witte, A.C., June 1988 (3)

*Cooperative Test Results of Apparent Viscosity Determinations at Low Shear Rates Using the Constant Pressure Viscometer*, Winterburn, Georgina A., November 1988 (8)

*Design and Operation of a High-Volume, High-Efficiency Grease Plant*, McLemore, Michael S. and LeSaicherre, James R., February 1989 (11)

*Dynamic Grease Testing Methods*, Lauret, Joep H.M., September 1988 (6)

*Evolution of EP Additives for Greases and Industrial Gear Lubricants*, Feher, J.J. and Malone, B.W., March 1989 (12)

*Flammability of Grease*, The, Gordon, Joseph R., November 1988 (8)

*High Performance Calcium Sulfonate Complex Lubricating Grease*, Muir, Ronald J., July 1988 (4)

*Infrared Spectroscopy in the Development and Manufacture of Lubricating Greases*, Izcue G., Antonio, August 1988 (5)

*Innovative Packaging: The New Cap-Lock System*, Jenks, G. Ralph, May 1988 (2)

*Judges 5:5 - The Time Factor in Grease Rheology*, Gow, Graham, December 1988 (9)

*Mist Application of Lubricants*, Bajaj, Kris K., April 1988 (1)

*NLGI 1988-89 President*, Pruitt, Phillip R., December 1988 (9)

*NLGI Technical Committee*, The, Root, Jon C., February 1989 (11)

*Open Gear Spray Systems - Recent Developments*, Gesdorf, Edward J., April 1988 (1)

*President's Address*, Fahey, John E., December 1988 (9)

*Relationship Between the Chemical Structure of a Lubricant and Fretting Corrosion*, Wunsch, Fritz, December 1988 (9)

*Revised ASTM D-1743 Standard Test Method for Corrosion Preventive Properties of Lubricating Greases*, The, Vartanian, Paul F., May 1988 (2)

*Simple Analytical Test and a Formula To Predict the Potential for Dermal Carcinogenicity from Petroleum Oils*, A, Haas, J.M., Dimeler, G.R., Basil, E.W., Wilkins, G.W. and Nutter, J.S., February 1989 (11)

*Technology and Lubricants - The 1989 Domestic Automobiles*, Fennema, Roger L. and Doornbos, Daniel, January 1989 (10)

*Value Engineering, The Automated Batch Process*, McAfee, Lowell, July 1988 (4)

*World Lubricants Market*, The, Fuchs, Dr. Manfred, January 1989 (10)

## Index by Category

### Gear Lubricants

*Open Gear Spray Systems - Recent Developments*, Gesdorf, Edward J., April 1988 (1)

*Evolution of EP Additives for Greases and Industrial Gear Lubricants*, Feher, J.J. and Malone, B.W., March 1989 (12)

## **General**

*Mist Application of Lubricants*, Baja, Kris K., April 1988 (1)

*Technology and Lubricants - The 1989 Automobiles*, Fennema, Roger L. and Doornbos, Daniel, January 1989 (10)

## **NLGI**

*1987 NLGI Grease Production, Marketing and Shipment Survey - A Challenge for the 90's*, Portwood, Robert B., March 1989 (12)

*1988 NLGI Awards*, November 1988 (8)

*NLGI 1988-89 President*, Pruitt, Phillip R., December 1988 (9)

*NLGI Salutes 55th Annual Meeting Sponsors*, January 1989 (10)

*NLGI Technical Committee*, The, Root, Jon C., February 1989 (11)

*President's Address*, Fahey, John, December 1988 (9)

## **Marketing**

*1987 NLGI Grease Production, Marketing and Shipment Survey - A Challenge for the 90's*, Portwood, Robert B., March 1989 (12)

*Technology and Lubricants - The 1989 Domestic Automobiles*, Fennema, Roger L. and Doornbos, Daniel, January 1989 (10)

*World Lubricants Market*, The, Fuchs, Dr. Manfred, January 1989 (10)

## **Lubricating Grease - Additives**

*Evolution of EP Additives for Greases and Industrial Gear Lubricants*, Feher, J.J. and Malone, B.W., March 1989 (12)

## **Lubricating Grease - Analysis**

*Infrared Spectroscopy in the Development and Manufacture of Lubricating Greases*, Izcue G., Antonio, August 1988 (5)

## **Lubricating Grease - Application**

*High Performance Calcium Sulfonate Complex Lubricating Grease*, Muir, Ronald J., July 1988 (4)

## **Lubricating Grease - Characteristics**

*Dynamic Grease Testing Methods*, Lauret, Joep H.M., September 1988 (6)

*Flammability of Grease*, The, Gordon, Joseph R., November 1988 (8)

## **Lubricating Grease - Composition**

*Application Studies of Self Activating Organoclay Grease Gellants*, Kieke, M., Kyriakopoulos, C., Maas, J., June 1988 (3)

*Application Studies of Self Activating Organoclay Grease Gellants (Revised)*, Kieke, M., Kyriakopoulos, C., Maas, J., September 1988 (6)

*High Performance Calcium Sulfonate Complex Lubricating Grease*, Muir, Ronald J., July 1988 (4)

*Infrared Spectroscopy in the Development and Manufacture of Lubricating Greases*, Izcue G., Antonio, August 1988 (5)

## **Lubricating Grease - Manufacture**

*Computer Control: Applications to Grease Manufacture*, Massey, J.M., Turner, D.A., Witte, A.C., June 1988 (3)

*Design and Operation of a High-Volume, High-Efficiency Grease Plant*, McLemore, Michael S. and LeSaichere, James R., February 1989 (11)

*Infrared Spectroscopy in the Development and Manufacture of Lubricating Greases*, Izcue G., Antonio, August 1988 (5)

*Value Engineering, The Automated Batch Process*, McAfee, Lowell, July 1988 (4)

### **Lubricating Grease - Packaging**

*Innovative Packaging: The New Cap-Lock System*, Jenks, G. Ralph, May 1988 (2)

### **Lubricating Grease - Production Figures**

*1987 National Lubricating Grease Institute Grease Production, Marketing and Shipment Survey - A Challenge for the 90's*, Portwood, Robert B., March 1989 (12)

### **Lubricating Grease - Rheological Properties**

*Judges 5:5 - The Time Factor in Grease Rheology*, Gow, Graham, December 1988 (9)

### **Lubricating Grease - Structure**

*Application Studies of Self Activating Organoclay Grease Gellants (Revised)*, Kleke, M., Kyriakopoulos, C., Maas, J., September 1988 (6)

*Relationship Between the Chemical Structure of a Lubricant and Fretting Corrosion*, Wunsch, Fritz, December 1988 (9)

### **Lubricating Grease - Testing**

*ASTM D 4693 Low Temperature Torque Test for*

*Grease Lubricated Wheel Bearings*, Stadler, J.F., September 1988 (6)

*Cooperative Test Results of Apparent Viscosity Determinations at Low Shear Rates Using the Constant Pressure Viscometer*, Winterburn, Georgina A., November 1988 (8)

*Dynamic Grease Testing Methods*, Lauret, Joep H.M., September 1988 (6)

*Judges 5:5 - The Time Factor in Grease Rheology*, Gow, Graham, December 1988 (9)

*Relationship Between the Chemical Structure of a Lubricant and Fretting Corrosion*, Wunsch, Fritz, December 1988 (9)

*Revised ASTM D-1743 Standard Test Method for Corrosion Preventive Properties of Lubricating Greases*, The, Vartanian, Paul F., May 1988 (2)

*Simple Analytical Test and a Formula To Predict the Potential for Dermal Carcinogenicity from Petroleum Oils*, A, Haas, J.M., Dimeler, G.R., Basil, E.W., Wilkins, G.W. and Nutter, J.S., February 1989 (11)

### **Computers**

*Computer Control: Applications to Grease Manufacture*, Massey, J.M., Turner, D.A., Witte, A.C., June 1988 (3)

---

## **The Index of the NLGI Spokesman, April 1950 - September 1987**

This index, compiled by Katrina M. Labude, Conoco, Inc. is available from the National Lubricating Grease Institute's International Office. The index is a must for every research or lab shelf. To order yours, send your name, company name, address and quantity desired to: NLGI International Office, 4635 Wyandotte Street, Kansas City, MO 64112 USA. The cost is \$12.00, including postage and handling.
